## More performance

Account for all relevant driver and vehicle factors including: safety records and risk assessments, on-time and hours of service, productivity, labor costs, fuel utilization, speed, out-of-route miles, idle time, and more

## Automated work-flow

Peer grouping retention methodology with a robust alert system develops meaningful driver profiles. Automate reviews, work-flow and follow ups based on productivity, risk assessment, pay-for-performance, reporting and more

## On-demand feedback

Feedback is timely and specific and based on an intelligent scorecard of meaningful data. Managers and drivers can quickly act upon key performance indicators to modify driving habits based on preset parameters
