

SAFETY & RISK ANALYTICS

PREDICTIVE ALERTS

Predictive driver turnover alerts recognize early warning signs of dissatisfaction and segregate drivers with higher risk of leaving before issues arise.

AUTOMATED DRIVER REVIEWS

Automated review work-flow creates scheduled touch points allowing for proactive communication between drivers and managers.

TREND TRACKING & SCORING

Retention reports analyze and track trends to focus attention on at-risk drivers. Work-flow and scoring ensure managers are accountable for retention.

Identify at-risk drivers & pro-actively coach to improve driver retention and avoid driver turnover.
